Subject: Call to discuss PFAS Contaminants in Anvil 10+10
Location: Microsoft Teams Meeting
Start: 1/6/2021 6:00:00 PM
End: 1/6/2021 7:00:00 PM
Show Time As: Tentative

Required Attendees: Herrick, Jacquelyn; Dyer, Brian; Nguyen, Thuy
Optional Attendees: Teter, Royan; Saunders, Jennifer; Kaczmarek, Chris

Thuy is going to join us at 1:30. In the meantime, I can provide some background on this case. The most important issue from OECA's perspective is whether the PFAS contaminants in Anvil 10+10 – which most likely come from the fluorinated HDPE containers – would trigger an obligation for the registrant, Clarke, to submit a revised confidential statement of formula.

Jacquelyn: Thuy will be sending you the preliminary PFAS test results of the pesticide and containers.

Thanks in advance for your help.
